

K3|imagine POS hardware

The K3|imagine POS runs on any device (PC, laptop, tablet, mobile phone) supporting the HTML5 browser. It is compatible with the following operating systems: Windows, Linux, OSX, iOS, Android and Windows Mobile.

The POS receipt printers, cash drawers and scanners must be compatible with the K3|imagine Connector. To make it easy for you, K3 offers a Hardware Bundle which includes the Connector and compatible POS Printers, Cash Drawers and Scanners.

K3|imagine Connector

- The K3|imagine Connector is an Intel® Server device specially developed by K3 to connect the POS hardware.
- All other serial devices must use a USB to Serial connector, as the K3|imagine Connector only has USB ports.

K3|imagine POS Receipt Printers

- The serial device K3 Thermal Receipt Printer, manufactured by K3, is a standard 40 column receipt printer.
- The Epson T88V Thermal Receipt Printer is also compatible with the K3|imagine POS and supports both USB and Serial connection.

K3|imagine Cash Drawers

- The K3|imagine Cash Drawer is manufactured by K3, using an Epson Compatible Drawer Kick port.
- Any other Epson compatible Cash Drawer can be used – please contact us to check the compatibility of your cash drawer.

K3|imagine Scanners

- Any POS scanner that supports and runs in “Keyboard Wedge” mode, can be used with K3|imagine POS.
- The scanner can be USB, PS/2 or Bluetooth connected.
